Interest in Broadcasting

- One-way paging system infrastructure enhancement to provide audio/video broadcasting services.

- Video content as a catalyst for new forms of learning in accordance with Latin-American idiosyncrasy.
Interests in Broadercasting

❖ Interactive “Telenovela” (a kind of high rating soap opera with limited number of chapters) linked for example to e-commerce services and viewer’s opinion reception for plot adaptation.

❖ Video content as a tool for improving centralized and on-site telecommunication network management and technical training.
